6 Re: AXJ Letter to the President

7 Dear President Trump,

8 We hope this letter finds you well. Our Organization known as Actions For Justice (AXJ) is
9 writing to express some thoughts, and perhaps offer some insights on matters that are of concern
10 to our Members nationwide, and that could be of interest to you and your Administration.

11 Firstly, we commend your efforts in areas where you have aimed to strengthen our national
12 security and economic policies, keeping in mind the financial challenges we are all facing today.

13 However, we would like to discuss a few points where there is room for immediate improvement
14 and control within our Administration of Justice at all levels.

15 Unfortunately, as you have experienced firsthand, when our State and County District Attorneys
16 accept cases, they are many times violating our Constitutional rights to be presumed innocent,
17 and the Judges are imposing unrealistic amounts of bail on average individuals and families who
18 can not afford these amounts, and the accused are immediately incarcerated.

19 We are not referring mayor crimes, but to lesser ones that are blown out of proportion. Many
20 times there is no judicial oversight over the Judges, and they always side with the District
21 Attorneys, giving us the impression that there will be no fair trial before a Jury of their Peers as
22 expressly guaranteed in our Constitution. In this sense we invite you to take a look at this
23 website: <http://www.therobingroom.com/>

24 This apparent Judicial Corruption is affecting every American Family in this country every day,
25 and it seems to have gotten way out of control. There seems to be organized white crime in our
26 Administration of Justice nationwide.

27 We understand that these suggestions come with their own set of challenges, but they are
28 presented with the belief that your administration will be able to navigate these complexities to
the benefit of all Americans.

Thank you for considering these points. We wish you continued success in your endeavors for
the improvement of the Administration of Justice in the United States.
